Summary

Results-driven Software Developer with expertise in Java, MERN Stack. Passionate about problem-solving, scalable web applications, and continuous learning. Adept at collaborative development, version control, and agile methodologies. Seeking opportunities to contribute and grow in a dynamic team environment.

Technical Skills

Languages: Java, JavaScript, Python

Web Development: HTML, CSS, React.js, Node.js, Express.js, MongoDB, Bootstrap

Development Tools: Git, GitHub, Postman, VS Code

Core Subjects: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems (OS)

Work Experience

Software Developer Intern - EY Global Delivery Services & AICTE Edunet Foundation Dec 2024 – Jan 2025

- Completed a 6-week intensive internship on Building Modern Web Applications with the MERN Stack.
- Developed responsive and scalable web applications using MongoDB, Express.js, React, and Node.js.
- Implemented authentication, RESTful APIs, and state management to enhance user experience.

Projects

E-Commerce Website (Forever Fashion)

[WebsiteLink](#) | [GitHub](#)

- Built a full-stack e-commerce application with product management, cart functionality, and secure user authentication.
- Implemented RESTful APIs with Node.js and Express.js, and managed data using MongoDB.
- Designed a responsive and interactive UI using React.js, Tailwind CSS, and Framer Motion for smooth animations.
- Learned scalable backend architecture, efficient React state management, and protected route handling.

NotesApp

[WebsiteLink](#) | [GitHub](#)

- Developed a full-stack note-taking application with user authentication and CRUD operations.
- Integrated JWT authentication and MongoDB storage, ensuring data security and efficiency.
- Designed a responsive UI using React.js and Bootstrap for a seamless user experience.

Education

Teegala Krishna Reddy Engineering College

Oct 2023 – May 2026

Pursuing Bachelors in Electronics and Communication Engineering

Govt.Polytechnic Jopipet

Nov 2020 – Jun 2023

Diploma in Electronics and Communication Engineering

Achievements

Hackathon Winner – Won first prize in a college hackathon for building a scalable web application, demonstrating strong skills in web development, backend design, and deployment.

Low Cost Microscope – Developed a low-cost microscope as a school project, which was selected for the state-level competition and awarded by the district collector.

Hobbies

- Content Creation
- Reading Books
